

RINSE ADAPTERS

FOR AQUA-LAB™ CHEMICAL DISPENSING SYSTEMS

Hydra-Flex has developed an innovative solution to control flow rate for rinse applications – the Rinse Adapter. By using the adapter on a port on your Aqua-Lab panel, the need for extra pumps or secondary panels for rinsing is eliminated. By utilizing boosted pressure on your rinse applications, the same amount of water will be used for rinse applications – every time.

PC1 RINSE ADAPTER (SAM)

For use with Aqua-Lab SAM manifold (Aqua-Lab SD GEN2).

FLOW RATE (GPM) @ 200 PSI	PART NUMBER
4 GPM	1002997
6 GPM	1002998

PC2 RINSE ADAPTER (MAM)

For use with Aqua-Lab MAM manifold (Aqua-Lab MD/XD GEN2).

FLOW RATE (GPM) @ 200 PSI	PART NUMBER
6 GPM	1002999
8 GPM	1003000

PC3 RINSE ADAPTER (BAM)

For use with Aqua-Lab BAM manifold (Aqua-Lab HD/XD GEN2).

FLOW RATE (GPM) @ 200 PSI	PART NUMBER
10 GPM	1003001
12 GPM	1003002
15 GPM	1003003
